## EXECUTIVE SUMMARY

Founded in 2024, Phogole Resources is a specialised mining support company providing technical, environmental, and operational services across the mineral and groundwater sectors. Our core offerings: Groundwater Monitoring, Minerals Exploration & Beneficiation, and Underground Secondary Support, are designed to enhance safety, improve resource efficiency, and support sustainable mining practices.

Phogole Resources exists to provide the mining industry with reliable data, professional execution, and practical solutions that contribute to long-term operational success.

# COMPANY BACKGROUND

Phogole Resources was established in 2024 with a vision to deliver high-quality, science-driven, and safety-focused support services to mining operations of all scales. Although a young company, Phogole is built on a foundation of technical understanding, modern methodologies, and a commitment to doing work that delivers real value to clients.

We operate with an appreciation for both the economic and environmental responsibilities of mining, ensuring our services support compliance, efficiency, and safe working environments.

## VISION

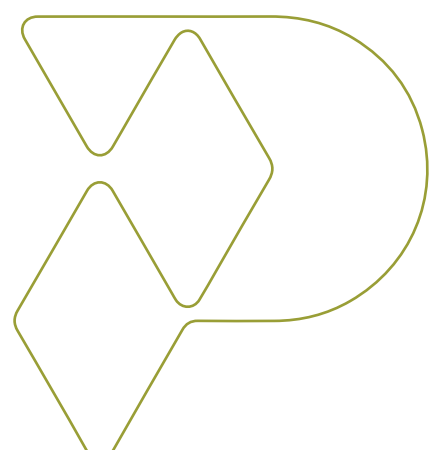

To become one of South Africa's leading providers of groundwater exploration and underground support solutions, recognised for our integrity, precision, and consistent delivery.

## MISSION

To deliver accurate, dependable, and safety-aligned mining support services that empower our clients to operate responsibly, efficiently, and sustainably.

# CORE VALUES

## SAFETY

We prioritise zero-harm principles in every aspect of our work

## EXCELLENCE

We commit to high standards and professional execution

## INTEGRITY

We operate ethically, transparently, and with accountability

## INNOVATION

We adopt practical modern tools and techniques

## SUSTAINABILITY

We support environmentally responsible mining

# OUR SERVICES

## 1. GROUNDWATER MONITORING

Phogole Resources provides complete groundwater monitoring solutions designed to help clients manage environmental compliance and maintain safe operating conditions.

### ..... OUR CAPABILITIES INCLUDE

- Monitoring borehole installation and management
- Water level measurement and recording
- Hydro-chemical sampling and analysis
- Contaminant plume assessments
- Regular environmental compliance reporting
- These services ensure mining operations maintain a responsible and compliant water management strategy.

## 2. MINERALS EXPLORATION & BENEFICIATION

We support clients throughout the exploration lifecycle by providing accurate geological insights and beneficiation guidance that unlock mineral value.

### ..... OUR SERVICES INCLUDE

- Geological field surveys and sampling
- Core logging and mineral identification
- Resource potential assessments
- Beneficiation advisory and process optimisation
- Laboratory coordination and quality control
- Our goal is to help clients reduce exploration risk and improve mineral processing efficiency.

## *Our* SERVICES

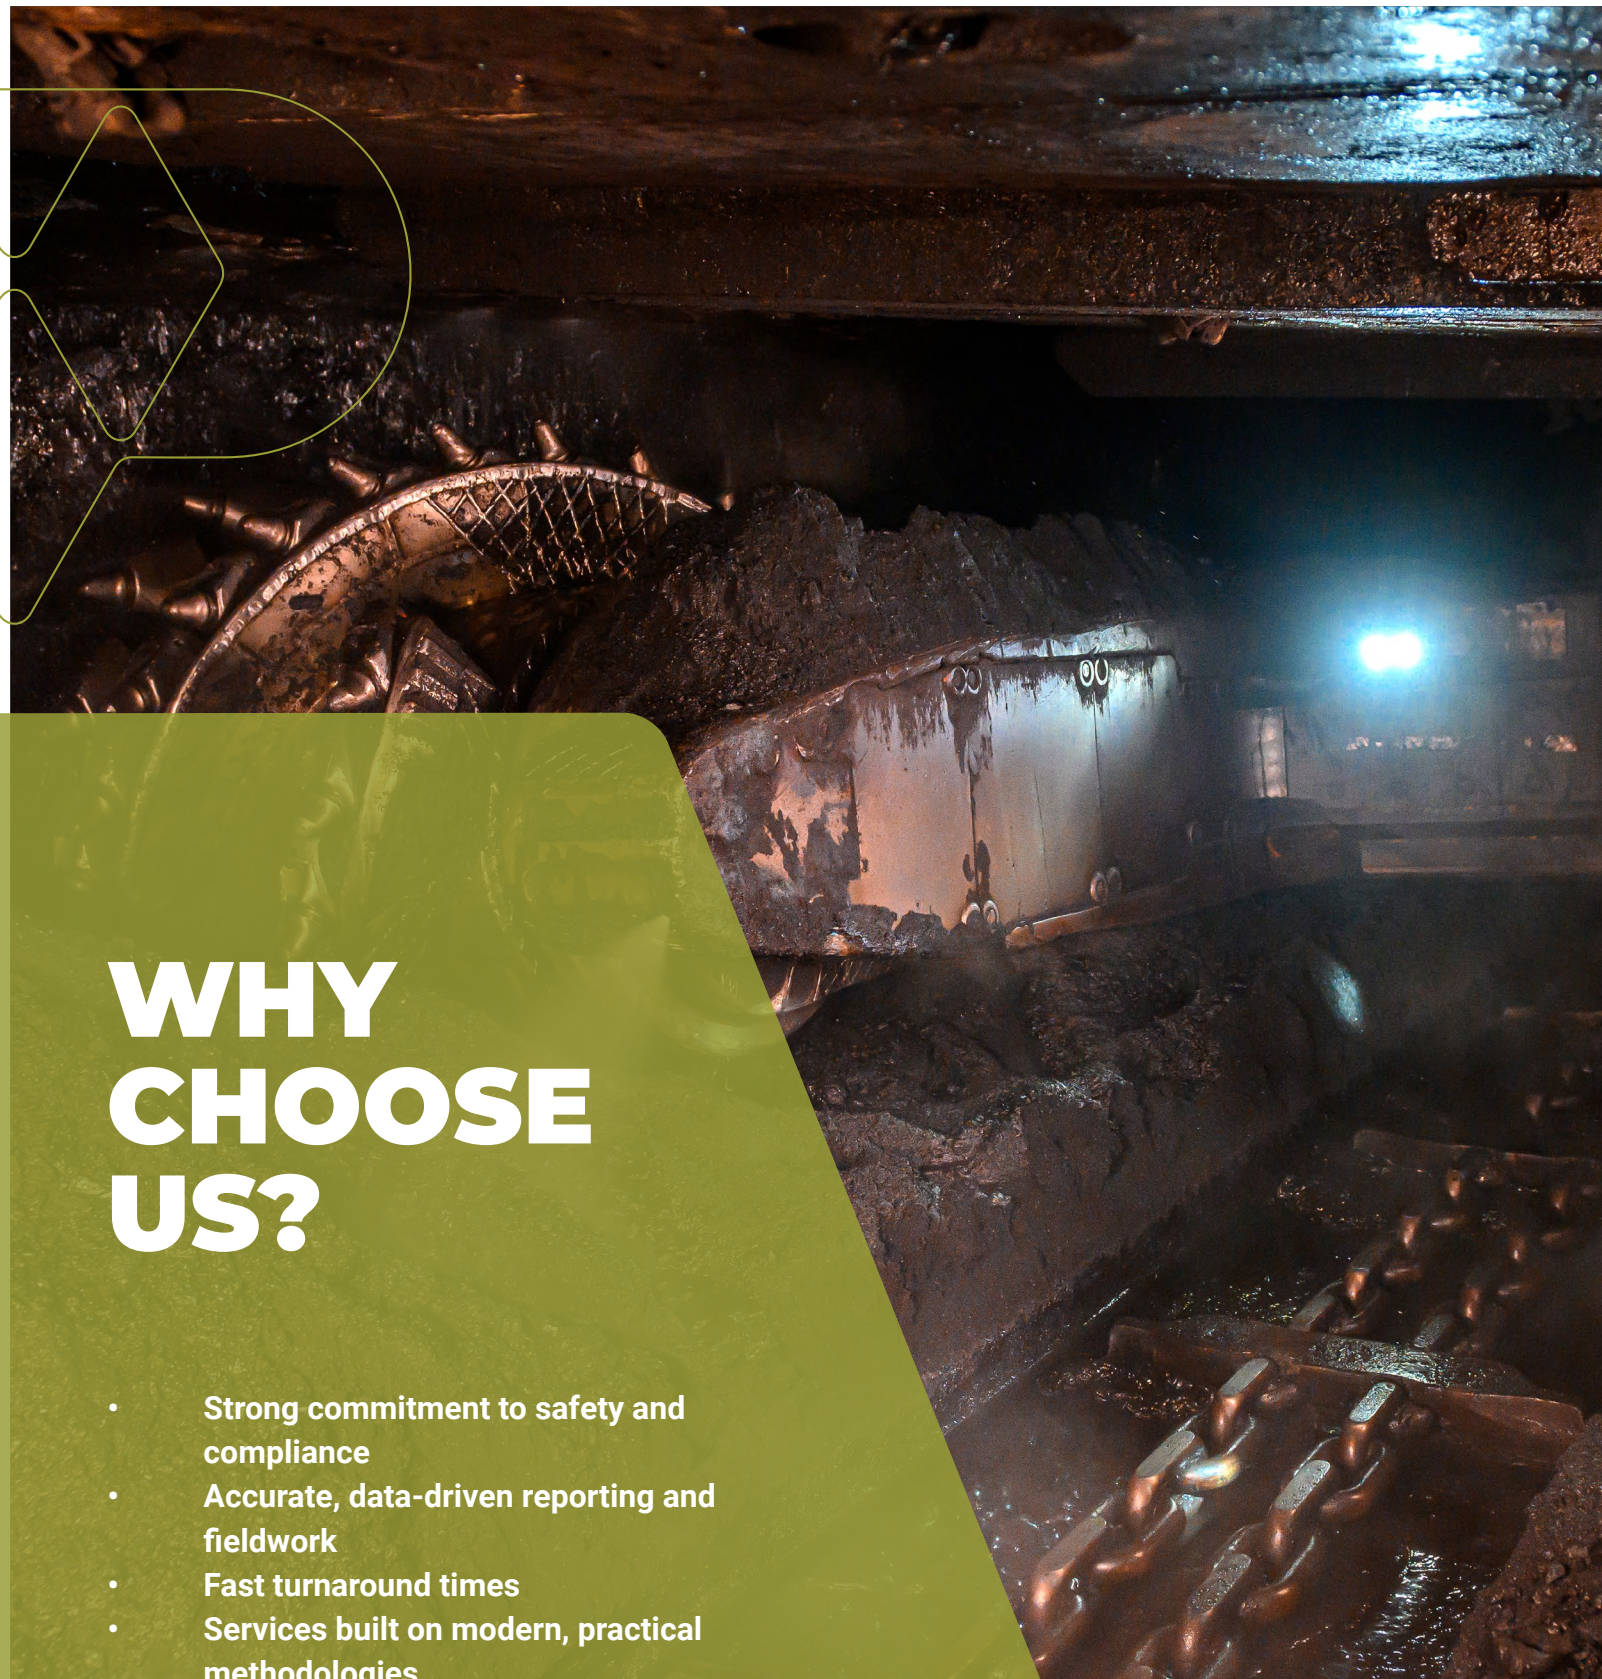

### 3. UNDERGROUND SECONDARY SUPPORT

Phogole Resources provides safe and reliable underground support solutions essential for mine safety and operational continuity.

#### ..... WE SPECIALISE IN

- Installation of support systems
- Underground condition assessments
- Rock reinforcement for high-risk or aging zones
- Support monitoring and reporting
- Ensuring compliance with mine health & safety regulations
- Our secondary support services are tailored to the specific geological and operational challenges of each site.

## WHY CHOOSE US?

- Strong commitment to safety and compliance
- Accurate, data-driven reporting and fieldwork
- Fast turnaround times
- Services built on modern, practical methodologies
- Flexible approach tailored to each client's operation
- High reliability, professionalism, and ethical standards

## TARGET CLIENTS

### PHOGOLE RESOURCES SERVES:

.....

- Mining houses
- Junior and mid-tier exploration companies
- Environmental and hydrogeological consulting firms
- Underground mining contractors
- Government and regulatory bodies
- Mineral processing operations

## FUTURE GROWTH STRATEGY

### AS PHOGOLE RESOURCES EXPANDS, OUR FUTURE GOALS INCLUDE:

.....

- Introducing advanced hydrogeological modelling
- Deploying digital monitoring and remote data systems
- Growing our beneficiation consulting capabilities
- Expanding partnerships with mining houses and contractors
- Broadening our geographic footprint across Southern Africa
